JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

Columbian sailed July 16 for Honolulu, via San Francisco, Cal., and was inspected and fumigated; and the steamship *Nebraskan* sailed July 29 for San Diego, Cal., after inspection.

Report from Veracruz—Inspection and fumigation of vessels—Increase of mosquitoes—Sanitary work continued—Yellow fever.

Acting Assistant Surgeon Jacobs reports, August 2:

Week ended August 1. Vessels inspected and fumigated, 3; vessels inspected only, 6. Total members of crews, 393; cabin passengers, 106; steerage passengers, 76.

Little rain has fallen in the past two weeks, giving mosquitoes a chance to breed, which is shown by increase of *Culex* and *Anopheles*. *Stegomyia calopus* are not plentiful.

The sanitary authorities are continuing their work of filling in low ground and ditching.

August 14. One more new case reported to-day.

NICARAGUA.

Report from Bluefields, fruit port.

Acting Assistant Surgeon Layton reports:

Week ended July 28. Present officially estimated population, 2,500. General sanitary condition of this port and the surrounding country during the week, good. Thirteen passengers embarked here on steamship *Bluefields*—6 for Cape Gracias a Dios, Nicaragua, and 7 for New Orleans. Cape Gracias passengers received no Service certificate; were to be landed at the Cape in their own boat; ship to have no communication with the shore.

Bill of health issued to the following-named vessel:

Date.	Vessel.	Destination.	Number of crew.	Number of passengers from this port.	Number of passengers in transit.
July 25	Bluefields	New Orleans, via Cape Gracias, Nicaragua.	23	13	0

Temperatures of all on board taken prior to sailing.

PERU.

Report from Callao—Inspection and fumigation of vessels—Status of plague in Peru—Smallpox and leprosy at Lima—Inspection of steerage passengers at Salaverry—Plague in Chilean ports.

Acting Assistant Surgeon Gutierrez reports, July 20:

Week ended July 18. Three steamships received bills of health: Aggregate personnel, 210 members of crews, 76 cabin and 48 steerage passengers. The 3 vessels were fumigated.
